IMPERIAL EXCUSES

For Troubles In China Received by Minister Wu.

DECREE OF PRIVY COUNCIL.

Government Disclaims Responsibility For "Boxer" Riots.

BLAME PLACED ON THE FOREIGNERS.

The Document Is Regarded as an Important Bit of News by the Officials at Washington as Showing the Attitude of Peking Government.

Washington, July 11.—Wu Ting Fang, the Chinese minister to this country, came to the state department in person and delivered to Secretary Hay a copy of a cablegram received by him purporting to be from the Chinese Imperial government, believed to have originated at the Chinese war department, disclaiming responsibility on the part of the Imperial government for the "Boxer" troubles, and asserting that the engagement at Tien Tsin was the direct result of the bombardment of Taku forts by the foreigners.

The cablegram was a copy of a lengthy Imperial decree, dated June 29. It reviews the entire trouble, and closes as follows:

"Our several ministers will make known accurately and in detail the contents of this decree and the policy of China to the ministers of foreign affairs in their respective countries, and assure them that military authorities are strictly enjoined to afford protection to the legations as hitherto to the utmost of their power. As for the anarchists they will be severely dealt with as circumstances permit.

"The several ministers will continue in the discharge of the duties of their offices as hitherto, without hesitation or doubt. This telegraphic decree to be transmitted for their information."

The document gave great satisfaction here, as it showed, assuming there was some foundation for the first reports, that the Imperial government had encouraged the Boxers, and even participated against the legations, that an effort is about to be made to retrieve that mistake.

The note is said to have originated with the privy council, and at the state department this body is declared to be identical with the Tsung Li Yamen, being the power next to the throne, and the one which deals exclusively with foreign powers.

The curious means adopted of forwarding the note are supposed to have been resorted to because what amounts to martial law in civilized countries is now in force in Peking and Shan Tung, so that Tsung Li Yamen would naturally confide the message to the war board, now in supreme control, to secure its transmission to Shanghai. The announced purpose of the Chinese government to protect the foreign ministers is gratifying to the officials here, for they have all along been more or less doubtful of the authenticity of the several dispatches which have emanated from Shanghai respecting the relations between Prince Ching and the legations.

It is said that the note does not call for answer from the state department at this stage, and will not materially affect the military program laid down by our government. Such forces as we can land in China will be pushed forward with rapidity to Peking. The only consideration that would induce the administration to reduce that pro-

gram at any point would be the reopening of communication with Minister Conger and his release from any sort of duress or restraint. Possibly, now that the Tsung Li Yamen is communicating with the outer world, it will permit the foreign ministers in Peking, if they are alive, to do the same. Our government will probably give the suggestion to Tsung Li Yamen through Minister Wu that this be done. Much will depend upon the response.

Want Better Proof.

London, July 11.—Although Shanghai repeats the statement that both the emperor and dowager empress are alive and telegrams from Chinese officials again testify to the safety of the legations, the assertions no longer stimulate hope here, and pessimism will prevail as long as the authorities, who on their own showing are able to get messages to the coast, fail to send confirmation of the safety of the foreigners from some member of a legation at Peking. London sees in the disappearance and reappearance of prominent people at Peking, and the efforts apparently making to shift the blame from one to the other, and in the attempts to represent themselves as victims of, instead of principals, in the recent occurrences, as only preparations for alibis and defenses in view of the approach of the troops of the powers and the tragedy they may discover on reaching the Chinese capital. A dispatch from Canton says Li Hung Chang is keeping excellent order there. Robbers and pirates are executed publicly and frequently, and the people are cowed and afraid to disturb the peace.

About Battles at Tien Tsin.

Berlin, July 11.—The German consul at Tien Tsin cables that the foreign settlements were continually bombarded by the Chinese from July 5 to July 8. On July 2 200 Boxers attacked the French settlement and were routed by the Russians. The British and Japanese forces July 7 bombarded the Chinese batteries. Toward evening Chinese shells penetrated the roof of the German consulate and caused an outbreak of fire, which was extinguished after slight damage had been done. On July 6 the Peipeng sailed for Taku with the German wounded. River communication between Tien Tsin and Taku has been safe since the Chinese fort midway between the two towns was captured. The railroad from Tong Ku has been repaired to within three miles of Tien Tsin. Nearly all the families of foreigners left Tien Tsin for Taku July 4.

Edict of Empress.

Shanghai, July 11.—An edict of the empress dowager, promulgated on June 30, has just been published in Shanghai. Her majesty expresses sorrow for the death of Baron von Ketteler, the German minister, who, she said, went to the Tsung Li Yamen on the day of his death against her wishes. Her majesty expresses regret that the capture of the Taku forts should have complicated matters, but orders that the Boxers be suppressed and the foreign legations in Peking protected. The whole tone of the edict is to hold the foreigners blamable for the gravity of the crisis.

Foreigners Hard Pressed.

Washington, July 11.—The following cablegram has been received at the navy department from Admiral Remy at Chefoo: "Arrived, two battalions Ninth Infantry and one battalion marines, Colonel Meade, landed to proceed to Tien Tsin. Allied forces at Tien Tsin engaged in maintaining their defenses. Ordered Solace here to take sick and wounded to Yokohama hospital. Oregon proceed soon to dock at Kure, towed by chartered steamer and conveyed by Nashville. Just learned from Admiral Seymour at Tien Tsin foreigners there are hard pressed."

Advices to French Minister.

Paris, July 11.—At cabinet council the minister of foreign affairs, M. Delcasse, read a telegram from Tokio confirming the news that Japan will send immediately to Taku a complete division of 19,000 men. A dispatch from Chefoo, dated July 7, says the orphanage at Shan Tung has been pillaged. The Chinese minister here informed M. Delcasse that Li Hung Chang had cabled him from Canton saying that he had just received a telegram from Peking asserting that the soldiers and rebels who surrounded the legations had gradually dispersed.

Picnic Party Injured.

Chicago, July 11.—As a Sunday school picnic party of 100 children and their teachers were descending a wooden stairway leading from the Halstead street viaduct to the Burlington tracks the stairway collapsed and 50 children were precipitated 10 feet to the ground below. The following were seriously injured: Jessie Oles, 16; James K. Miller, 14; Louis Petri, 13; Annie Krueger, 11.

TRAIN ROBBERS FLEE.

Successful Trick Turned by a Half Dozen Bold Operators.

SECURED TEN THOUSAND IN CASH.

Illinois Central Train From New Orleans to Chicago Is Held Up in Kentucky and Express Car Looted.

Paducah, Ky., July 11.—The Illinois Central fast train from New Orleans to Chicago was held up and robbed at 1:20 a. m., two miles south of Wickliffe, Ky. The train was flagged, and when it stopped the bandits entered the cab. The fireman, J. J. Fryisch, was knocked in the head with the butt of a revolver and badly hurt.

The robbers, six in number, cut off the engine and express car and ran a mile and a half to Fort Jefferson, near the Ohio river, and within sight of the Missouri shore. Here they blew the express safe and secured all the valuables it contained.

They left the engine and car and crossed into Missouri. They dropped one package containing \$700 on the Kentucky side and another on the Missouri side, both of which were recovered in the morning.

The robbers overpowered the express men and made them get off the train, but did not attempt to molest others on the train, which carried a large load of passengers. A special train with bloodhounds and an armed posse left division headquarters at Jackson, Tenn., for the scene, and it is understood Missouri officers are hot on the robbers' trail. About \$10,000 was secured in addition to the money dropped by the robbers.

The robbers left some of their tools, a rifle and four pistols in their flight.

Must Stand Trial.

Georgetown, Ky., July 11.—The motion of the defense for a continuance in the case of ex-Secretary of State Caleb Powers, charged with being accessory to the Goebel murder, came up before Judge Cantrill. Commonwealth Attorney Franklin, in presenting the objections on the part of the prosecution, claimed that the defendant had not exercised due diligence to get his witnesses here. Ex-Governor Brown, for the defense, replied, saying that the affidavits filed showed abundance of cause for a continuance and asserted that a trial under the circumstances would be so much labor lost, as the higher courts would certainly reverse the verdict on the ground of error. The motion for a continuance was overruled, the court finding it was the fault of the defense that witnesses are not present. The court notified the defense that they might have attachments issued, returnable next Tuesday, for all absent witnesses.

Mr. Maddison Took Water.

London, July 11.—The queen's garden party gave rise to an extraordinary scene in the house of commons. The usual humdrum Wednesday business was in progress, when an adjournment was moved to enable the members to attend the function at Buckingham palace. John Dillon, Irish Nationalist, objected, saying that business interfered with such a purpose. Fred Maddison, Radical, who followed, protested in an excited manner against what he considered to be "flagrant abuse of governmental power, and the gross waste of the precious time of the house." He declared that a single clause of the agricultural holdings bill, then under discussion, was worth more than all the royal garden parties, "with all royalty thrown in." These remarks brought forth angry shouts of "Withdraw," and on the demand of the speaker, Mr. Maddison withdrew his expressions.

Isn't This Awful?

London, July 11.—William Waldorf Astor's sudden departure for Germany at the very height of the season, the cancelling of all his engagements here and the recalling of invitations which he had issued for house parties on next Sunday and on Sunday a week at Cliveden, are universally regarded as signalling the close of his social career in London. It is openly declared here that the Prince of Wales, who is the supreme arbiter of English society, has cut him in consequence of his insulting treatment of Captain Sir Archibald Milne last week.

Stevenson Leaves Lincoln.

Lincoln, Neb., July 11.—Adlai E. Stevenson left Lincoln for Lake Minnetonka, Minn., where his family is stopping. He will probably remain there a few days and then proceed home until formally notified of his nomination. Mr. Stevenson said he expected to take any active part in the campaign until after that time.

PLOT TO ASSASSINATE.

Chairman Odell Says He Discovered Either a Crank or Munchausen.

Newburg, N. Y., July 11.—Chairman B. B. Odell of the Republican state committee said, concerning the alleged plot to assassinate President McKinley: "I read an account in a New York paper of an alleged plot to assassinate President McKinley, and also to the part which I am supposed to have taken in the matter. I have nothing to say upon the subject except that I have made an investigation, which I started with the state committee detective, on the line of what I supposed to be political information, and I discovered either a crank or a Baron Munchausen, and on the principle that an ounce of prevention is worth a pound of cure, it is probable that my report to Secretary Dick is the cause for the extra care now being taken of the president. I have nothing further to say upon this subject, except that I regret that some one has been indiscreet enough to make of a trifling matter the gigantic plot exposed in the papers."

Hanna on Assassination Story.

Cleveland, July 11.—Senator Hanna, referring to the report that a plot to assassinate President McKinley had been discovered in New York, emphatically declared that the story was false. "This," said Mr. Hanna, "pointing to the story of the alleged plot published in the morning papers, 'is the first I have heard of it. There is absolutely, to the best of my knowledge, no truth in it.' Cornelius N. Bliss, ex-secretary of the Interior, and National Committeeman Payne of Wisconsin arrived here. Both were closeted with Senator Hanna for an hour or more discussing the personnel of the national executive committee. When Senator Lodge arrived he joined the conference."

Attempt to Wreck a Train.

Philadelphia, July 11.—According to officials of the Baltimore and Ohio railroad, a deliberate attempt to wreck the Washington express going to New York came near being successful at Folsom, a short distance outside of this city. The train consisted of two sleepers, two day coaches and three baggage cars, and left Washington at 11:30 p. m. It was due here at 3:10 a. m. While going at a good rate of speed it ran into an open switch at Folsom. The engine was overturned and the three baggage cars were derailed, but no one was injured. An examination of the switch by the railroad men disclosed the fact that the switch had been tampered with for the apparent purpose of wrecking a train. It is believed, however, by many in the vicinity that it was the work of small boys. The railway officials have placed detectives on the case and have offered a reward of \$500 for the arrest and conviction of those tampering with the switch.

President Thwing Speaks.

Charleston, S. C., July 11.—The "Contributions of Religious Organizations to the Cause of Education" was the general topic at the morning session of the National Educational association. The attendance was not large. Arrivals have increased the attendance to nearly 3,000, but the July sun rendered the cool island resorts near Charleston more inviting to many of the visitors than the auditorium. At the close of the morning session the president announced the nominating committee, composed of one member from each state. This body will nominate a ticket for the coming year. Professor Charles F. Thwing, president of the Western Reserve university, Cleveland, O., was the first speaker at the session of the department of higher education.

Queen's Garden Party.

London, July 11.—The queen's garden party at Buckingham palace was an especially brilliant function. Her majesty came from Windsor to attend the party and drove about among the thousands of guests, who included the members of the royal family and diplomatic corps and other distinguished people. The members of the United States embassy and the United States consulate were present in full strength.

Blanket Indians Sullen.

Solway, Minn., July 11.—The Blanket Indians at Red Lake are in a sullen mood and trouble is feared. The government is erecting a \$30,000 school at that point, and these Indians seriously object to any attempts at civilizing them. This tribe of Indians has refused annuities from the government for a number of years, claiming that the government has not given them their just portion of the Indian money.

Death of Captain Webster.

San Francisco, July 11.—News has just been received of the death in Alaska of Captain Daniel Webster, which took place June 18. Captain "Dan" was well known among the sailors of both the Atlantic and Pacific coasts.

ADDRESSED BY ELKINS

West Virginia Senator Sounds Key-note at State Convention.

LIVELY RACE FOR PLACES ON TICKET

Gathering of Republicans at Charleston Is the Largest in the History of the State—Letter From Chairman Hanna.

Charleston, W. Va., July 11.—The Republican state convention here was the most largely attended of any in the history of the party in this state. Besides the nomination of a state ticket it was made the occasion of opening the presidential campaign and the canvass of Hon. Stephen B. Elkins as senator.

While the Republicans carried the state four years ago the plurality was close and the margin in the legislature was so slight as to be in dispute. Everything is at stake between the contending parties this year, including the presidential vote, a full state ticket and control of the legislature, which elects a senator, but the chief contention here this week is over the state offices.

There was an army of followers here for the respective candidates, and they are regarding these nominations as much more desirable than in former years.

While there was no opposition to Elkins for senator, or to A. B. White for governor, the contests for other places on the state ticket were in marked contrast to these two cases. There were many candidates for each place. The delegates spent the forenoon in district meetings, selecting their vice president and other officers of the convention and members of the different committees to be reported to the convention.

It was 1:35 when the convention was called to order by Secretary of State Dawson, chairman of the state committee. Governor Atkinson was the first of the leaders to be cheered as he entered the hall. Other ovations followed. Prayer was offered by Dr. R. H. Merrill, pastor of the Kanawha Presbyterian church. Mr. Dawson then announced the temporary officers and introduced Senator Elkins as the temporary chairman. He was greeted with continuous cheers.

A letter was read from Senator Hanna in reply to an invitation to be present, in which he stated other duties prevented his attendance. A letter was also read from Senator N. B. Scott, who is sick and unable to be present. Both were received with cheers, and there were yells of "Give us another Hanna."

What Populists Want.

Lincoln, Neb., July 11.—Three fusion state conventions, the Populists, Democrats and Silver Republicans, met here to nominate a full state ticket. Over the division of the offices between the three parties, a duty delegated to the conference committee, the sharpest contest was looked for. At present the Populists control every state office except two, which are the lieutenant governorship, by the Silver Republicans, and the attorneyship, by the Democrats. The Democratic leaders have been asking for a more equitable division, but a strong disposition was shown by the Populists to insist that every nominee be a Populist, which they claim was no more than fair, on account of the defeat of Charles A. Towne in the Democratic national convention.

Lewis Renominated.

Leesburg, Ga., July 11.—The Democrats of the Third district nominated Hon. E. B. Lewis for congress, to succeed himself.

Trouble With Mohave Indians.

Needles, Cal., July 11.—Since the closing of the term of school last week at Fort Mohave there has been much trouble between the Indians and the superintendent, Major J. J. McKoin. It seems that the parents of the Indian scholars think the children should be permitted to come home at the close of the school term, but Major McKoin insists that they shall remain at work on the school farm. A dispatch was sent, at the instance of the Indians, last week, to President McKinley, saying, "If the scholars were not allowed to come home, 'the Mohaves will make trouble.' A few days later, the Indian boys ran away from the fort, and Superintendent McKoin, with his deputies, has been trying to capture them and take them back."

Six More Bodies.

New York, July 11.—Six bodies and a portion of a seventh were found on the wreck of the steamer Saale. One was that of a stewardess, whose name is not known. The woman had been badly burned. There have been recovered thus far 157 bodies of victims.

WERE Taylor to return from his asylum in Indiana it's highly probable he wouldn't court an investigation any more than Powers and the rest of the gang are doing.

REPUBLICANS have been ranting because the Goebel suspects were not given "a speedy trial," and yet as soon as the first one was arraigned (Caleb Powers) his lawyers tried every hook and crook to get the case continued. Judge Cantrell, however, made them toe the mark, and the work of securing a jury is in progress.

OKLAHOMA now has a population of about 400,000, nearly four times as large as that of a number of the territories which the Republicans for political purposes have hurried into the Union. The Republicans promised Statehood to Oklahoma in their platform four years ago, but that is one of many promises which for reasons best known to themselves they have failed to keep.

THE July number of the Virginia Historical Magazine (a quarterly published at Richmond) contains a highly complimentary notice of "A Soldier of the Civil War," a critical and biographic military review, which was published in full in the BULLETIN last November. The Richmond reviewer directs especial attention to the careful and judicious discussion of the famous battle at Gettysburg. The Virginia Historical Society, he says, would be fortunate to be honored by more such publications, whether North or South.

THE LEDGER'S TALK ON FOREIGN MISSIONS.

A ten-year-old Sunday school pupil after reading the Public Ledger's articles this week on the subject of foreign missions remarked: "The editor of the Ledger doesn't know what he is talking about."

The Ledger editor's attempt to show by a diagram the results of mission work in China is pretty conclusive proof that the ten-year-old Sunday school pupil was right in the opinion expressed of him.

The Encyclopedia Britannica is, probably, a better authority than Br'er Davis on this subject. Speaking generally of missions, the Encyclopedia says: "With all its deficiencies, the Christian Church has gained 'the nations of the future,' and whereas in the third century the proportion of Christians to the whole human race was only that of one in a hundred and fifty, this has now exchanged for one in five, and it is indisputable that the progress of the human race at this moment is entirely identified with the spread of the influence of the nations of Christendom." Continuing, it says: "Side by side with this continuity of missionary zeal, a noticeable feature is the immense influence of individual energy and the subduing force of personal character. Around individuals penetrated with Christian zeal and self-denial has centered not merely the life but the very existence of primitive, mediaeval and modern missions. * * * At the most critical epochs such men have ever been raised up, and the reflex influence of their lives and self-denial has told upon the church at home, while apart from their influence the entire history of important portions of the world's surface would have been altered."

"If from the agents themselves we turn to the work that has been accomplished it will not be disputed that the success of missions has been marked amongst rude and aboriginal tribes. What was true in the early missions is true in these latter times. The rude and barbarous Northern peoples seemed to fall like full ripe fruit before the first breath of the

gospel. The Goths and the Vandals who poured down on the Roman Empire were evangelized so silently and rapidly that only a fact here and there relating to their conversion has been preserved. Now this is exactly analogous to modern experience in the South Seas, America and Africa."

Speaking of mission work in India, the Encyclopedia says: "While the real strongholds of the Hindu religion and civilization still stand out like strong fortresses and defy the attempts of the besiegers, yet the disintegrating agency of contact with Christianity is working out its slow but sure results."

"Statistical facts," says Sir Bartle Frere, on this subject of missions in India, "can in no way convey any adequate idea of the work done in any part of India. The effect is often enormous where there has not been a single avowed conversion. The teachings of Christianity amongst 160 millions of civilized, industrious Hindus and Mohammedans in India is effecting changes, moral, social and political, which for extent and rapidity in effect are far more extraordinary than any that have been witnessed in modern Europe."

What is true of mission work in India is equally true of mission work in China and Japan.

"Go ye, therefore, and make disciples of all the Nations."

THE PHILADELPHIA PLATFORM.

What an administration organ calls the "basic features of the platform" adopted by the Republican convention at Philadelphia, include the following:

A plank favoring such legislation on trusts "as will effectively prevent abuses liable to arise from such conditions."

This plank was drawn by a sub-committee of the Committee on Resolutions, Senator Joseph B. Foraker, of Ohio, Chairman. Foraker is counsel for the Continental Tobacco Co., better known as the plug tobacco trust. A few weeks ago he left his seat in the Senate in the midst of important business to go to Columbus, Ohio, and defend his client in an action brought to annul its charter. In his address to the court the Senator went so far outside his brief as to defend all trusts as not necessarily beneficent, but a "necessary evolution of business conditions." His rejoinder to criticism was, "What are you going to do about it?" He admitted that labor often suffered from the trust combinations, but added with a sneer that this was "only an incident."

The platform was submitted to a convention opened and dominated by Hanna, Ohio, shipping and steel trusts, and presided over successively by Wolcott, Colorado, counsel D. and R. G. R. R. and numerous street car and other corporate interests.

Lodge, Massachusetts, railroad and corporation lawyer.

Such a committee and such a convention are, of course, competent to shape an anti-trust policy that will be entirely satisfactory—to the trusts.

The American people want none of it!

THE REPUBLICAN RECORD.

The Republican party once declared its opposition to "all combinations of capital." It has become, says the National Democrat, the exponent and defender of capital in all its forms, the protector of every political evil that has arisen since the war to assail or menace the welfare of the citizen.

Once solemnly declaring "the maintenance of the principles of the Declaration of Independence and embodied in the Federal Constitution to be essential to the preservation of our republican institutions," it now maintains the right to govern subject peoples by the sword.

Once declaring the people by tradition and interest to favor bimetalism and "condemning the policy of the Democratic administration in its efforts to demonetize silver," it now renounces that ancient doctrine and claims credit for its complete destruction.

There was a time when it put its trust in the people. Since then it has put the people in its trusts. There was a time when its standards were lofty and ennobling. Its only standard now is standard oil.

Its battle-cry years ago was "Freedom and the Union." If due credit be given to one of its modern leaders, its motto for 1900 is "Gold and Glory."

THE THREAT OF MILITARISM.

The army is the impersonation of force. It does not deliberate, it executes; it does not reason, it shoots. Militarism is the very antithesis of democracy. In any army the commander orders, the soldier obeys; in a republic mandates issue from the sovereign people, and the public servant gives heed. Can any one doubt the demoralizing results which follow the use of force, even when the force is justified by necessity? We cannot afford to weaken the government's reliance upon the people by cultivating the ideas that all the work of war must be done by professional soldiers.—W. J. Bryan.

A DEED filed in the office of the Fayette County Court transferred the Kingston Stud, of near Lexington, from the ownership of Mr. and Mrs. J. B. Ferguson to Hon. C. J. Bronston. The price paid was \$30,000 cash. The farm is situated about five miles from Lexington on the Russell Cave pike and contains 208 acres. The price per acre was \$144.23. The place is one of the famous stock farms of the Bluegrass and is handsomely improved.

WEST UNION Defender: "A piano agent has been victimizing farmers in the western part of Scioto county by taking organs and pianos from them in payment for new instruments. The old instruments were sold by him at low cash prices as soon as he got out of neighborhood, and the new ones never came. A number of notes were discounted by him in Portsmouth banks, and there are several lawsuits started by parties who are trying to reclaim their old pianos and organs from the people to whom the agent sold them."

LAST year the people of Coshocton, O., subscribed the sum of \$20,000 and donated a free site of several acres for the establishment of a rolling mill and sheet steel works in their city. The mill was built and began operations about the first of the present year. Shortly afterward it was taken over by the recently formed American sheet steel trust, which closed the mill, discharged the employees and which, it is now stated, proposes to dismantle the new plant and remove the machinery and equipment to other points. The people of Coshocton now propose to go into the courts for the recovery of their money.

AFRAID OF A WITNESS

And the Goebel Suspects Are Trying to Get Him Away From Georgetown.

It is charged by some of those interested in the prosecution of the Goebel suspects, at Georgetown, that a plot is pending to spirit away Finley Anderson, one of the chief witnesses against Caleb Powers. While the affidavit of the defense was being submitted in the court house W. B. Anderson, father of Finley, went to the Wellington Hotel and took him away. The pair were shadowed to the home of "Squire Lemen in the suburbs, where a horse and buggy were standing hitched by the roadside.

The elder Anderson tried to prevail upon his son to leave the town, telling him he could get money and a pass to take him any place. Young Anderson got a message to Arthur Goebel, who, with James Fletcher, hurried to the place and took young Anderson back to the hotel. Anderson says he has been repeatedly asked by witnesses for the defense to "take walks" with them.

He is a telegraph operator, and was employed in the Western Union office at Barboursville when the Powers brothers and Charles Finley were there in January organizing the mob which went to Frankfort on Thursday prior to the shooting of Goebel. His testimony against Powers is said to be very strong.

Robert Noaks, the L. and N. conductor who was recently arrested, has made a statement to the authorities for the prosecution which is said to embody some very startling evidence against the accused.

Notice to Teachers.

The County Examiners will hold an examination for white applicants for certificates to teach school in Mason County in High School building in this city on Friday and Saturday, July 20th and 21st, and for colored applicants Friday and Saturday, July 27th and 28th, commencing at 8 o'clock. Applicants will furnish their own paper, pens, ink and pencils. G. W. BLATTERMAN, Supt.

SAY!

WHAT?

WHITE, JUDD & CO. SELLING OUT! I CAN'T BELIEVE IT.

It's true all the same. G. S. Judd sold out to Mr. White and went West. J. F. Martin then sold out to Mr. White and now Mr. White sees that he cannot see well enough to conduct the business, so he has decided to close out his large and elegant stock of Furniture at cost. No 10 per cent. cut plan but at COST.

IF YOU NEED ANYTHING IN THE FURNITURE LINE NOW IS THE TIME TO SECURE IT CHEAP.

And if you don't need it just now it will pay you to buy at the cut prices for future use. Come and look through our stock and be convinced.

C. H. WHITE.

Mr. White went to Cincinnati a few days ago to have his eyes operated on, but his physician concluded it was not advisable at present, so he has decided to sell out and quit business.

He will sell any or all the houses he owns in Maysville—some at cost and some below cost, and on from one to five years' time, deferred payments to bear 5 per cent. interest.

W.T.CUMMINS

Corner Third and Limestone.

L. H. Landman, M. D.,

Of 547 West Ninth Street,
CINCINNATI.

Will be at the Central Hotel, Maysville, Ky., Thursday, JULY 13th, 1900, returning every first Thursday in each month.

For Sale or Rent.

The house now occupied by R. H. Politt on Sutton street is for sale or rent. Also the White, Judd & Co. business house occupied by C. H. White on Second street is for rent. C. H. White is determined to close out. Apply to C. H. WHITE.

The Bee Hive

Our policy is to make this a busy, instead of the usual dull summer month. Great reductions in seasonable goods will be found throughout our entire large stock. We mention the Ladies' and Children's Straw Sailors as an instance. Hats that were marked 69c. and 75c. are reduced to 45c. The 59c. kind are now 39c. and those that were 49c. and 39c. are ridiculously priced—as low as 25c. It's a great chance if you or yours needs a sailor.

GREAT BARGAINS IN MEN'S SUMMER SHIRTS

This is the season that perspiring man looks for comfort in the way of Shirts. We can help him along for but little cost. Mark these two special leaders:

Silk front Negligee Shirts, splendid washable fabrics, sold elsewhere at 75c. and \$1, are priced here at 50c
Bedford Cord Soft Shirts, decidedly cool, comfortable and durable, worth fully 75c., for this week only, 39c

A WONDERFUL SEASON FOR LAWNS

We would not like to State the number of yards of Lawn we have already sold this season. You'd think we were exaggerating, and still the rush for lawns continues, and new ones reach us every week. Several more cases on the road now. A very recent arrival is a fine figured Dimity that should sell for 20c., but marked here at 15c. Prices on Lawns range from 4c. to 50c., advancing by easy stages. Our stock is still large and select.

PARSON WARNER,

A Resident of Washington, Who Is Nearing His Hundredth Birthday—Still Hale and Hearty.

Parson Reuben Warner, of Washington, now in his ninety-fifth year, is as hale and hearty as many men of seventy, his only ailment being asthma. He has his second sight and can read without spectacles, as well as any younger person. He remembers distinctly the day the news spread over the country of the murder of Baker, such occurrences being more uncommon then than now, he says.

Warner also remembers when four rope walks and four cotton factories were running every day at Washington.

He says the whipping post that stood behind the court house, presided over by George Peyton, was liberally patronized in those days, but that the "gemmen" who had a taste of it once generally managed to give it a wide berth afterward. Darkies and whites got it in the same kind of doses when they needed its corrective powers.

Whenever a man was caught tampering with the slaves in any way, trying to induce them to run off, he was hustled away to the whipping post. The case of one from Indiana or Ohio who was discovered at this business, he remembers particularly, as he was in town that day with his master, and he heard it talked about and the roasting that Peyton administered to him.

The parson has wiped his feet of the Republican party, he says, and will vote for Mr. Bryan and the State Democratic ticket this fall, if he lives.

Wheat \$1 Per Bushel.

Mr. Wm. R. GILL had 110 acres of wheat that made thirty-five bushels to acre.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store. Every bottle guaranteed.

BORING FOR OIL.

Work of Sinking a Well on Dr. Ellis' Farm Near Aberdeen Began To-day.

The Ohio Oil Company, which is a branch of the Standard Oil Company, leased, a few months ago, several thousand acres of land in Adams and Brown County for the purpose of boring for oil and the company is now about ready to begin operations in the immediate neighborhood of Aberdeen.

A force of hands began to-day the work of sinking the first well on the farm of Dr. A. N. Ellis, a few miles above Aberdeen. They expect to reach the Trenton limestone, under which they hope to find oil, at a depth of from 1,200 to 1,700 feet.

Each well will cost about \$5,000.

Some six weeks ago the company put in a well near Marietta, O., that is producing about 1,000 barrels a day.

The company now has 8,000 wells in Ohio and 2,000 in Indiana. If they succeed in finding oil near Aberdeen it means a big thing for Maysville and all this section.

River News.

Assistant United States Engineer R. R. Jones will soon resume the survey of the Ohio River. The quarter boats are being prepared, and will be ready for service in ten days.

Captain Massey will bring the Burnside to Cincinnati for charter or will run her in some trade as a lowwater craft.

Stanley for Pomeroy and Pearce for Portsmouth to-night. Wells down this evening and Bay to-night.

Oligonunk, the Place of Caves

The only excursion resort combining instruction with pleasure. See the wonderful stalactites and stalagmites. A beautiful railroad ride along the Ohio river and among the Kentucky mountains. The C. and O. will run excursions to Oligonunk Sunday, July 15th, 22nd and 29th. Rates for the round trip from Maysville will be only 75 cts.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50c. at J. J. Wood & Son's drug store.

Don't Be Blind To Facts You Should Know

The Testing of the Eyes by a competent Optician is not a matter of guess work, nor is it a matter of trying on glasses promiscuously, but it is a science governed by principles which none but a person who has studied the science of Optics can understand. We have, with years of experience and close application to properly fitting of glasses to the sight, acquired the knowledge of knowing how, a fact which certainly gives us a great advantage.

Come and let us examine your eyes and we will advise you regarding the true condition of them.
